

Eden Greenspace projects provide simple ways to make a direct impact where it matters most. When Purchasing this product you are helping to plant trees in Kenya, remove toxic plastic from our oceans, provide clean solar lighting, and more

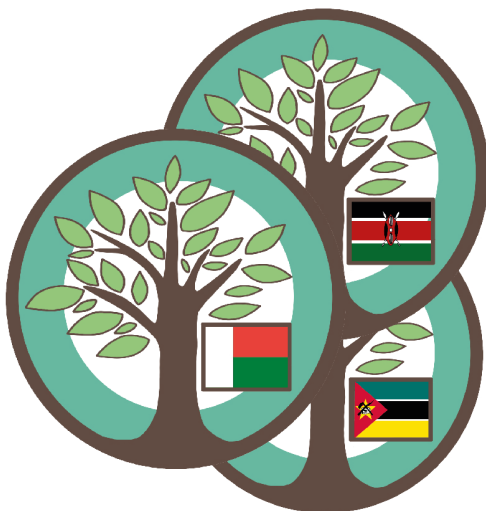

SolarAid works in many countries across sub-Saharan Africa where more than 3 million people have been provided with clean lighting. They work in some of the most remote and disadvantaged towns, providing lights for schools, homes and workplaces

Through partnership with Buglife, a non-profit organisation based in the UK, you can help conserve British pollinators, allow wildlife to survive through climate change, and benefit the farming sector by increasing the number of invertebrates in the UK.

Through partnership with Clean Ocean Sailing, a non-profit organisation from Cornwall, you can help reduce the amount of plastic from our seas, protect marine life and prevent the dangerous effects of plastic from reaching our shores

Through partnership with Eden Reforestation Projects, a world-leading reforestation charity, you can help to reduce poverty and restore forests in Kenya, Madagascar and Mozambique. As of December 2020, Eden have planted 485 million trees and aim to reach 500 million by 2025, Eden provides many social and environmental benefits including employment in poverty-stricken states, protecting biodiversity, and fighting against climate change.
